Table of contents Volume 93

No. 1 pp. 1–93 issued on 8.10.1985
No. 2 pp. 95–190 issued on 27.11.1985
No. 3 pp. 191–290 issued on 30. 1.1986
No. 4 pp. 291–386 issued on 24. 3.1986
No. 5 pp. 387–460 issued on 25. 4.1986
No. 6 pp. 537–546 issued on 9. 6.1986

Adolph, S., s. Kiel et al. 69–76
Ali, S., s. Schäfer et al. 502–510
Amsbaugh, S.C., s. Kuff et al. 213–219
Ananiev, E.V., Barsky, V.E.: Elementary structures in polytene chromosomes of *Drosophila melanogaster* 104–112
Andronico, F., s. Barsacchi-Pilone et al. 435–446
Arnold, M.L., Shaw, D.D.: The heterochromatin of grasshoppers from the *Caledia captiva* species complex. II. Cytological organisation of tandemly repeated DNA sequences 183–190
Ashburner, M., s. Kastritsis et al. 381–385
Ault, J.G.: Stable versus unstable orientations of sex chromosomes in two grasshopper species 298–304
Banga, S.S., Bloomquist, B.T., Brodberg, R.K., Pye, Q.N., Larrivee, D.C., Mason, J.M., Boyd, J.B., Pak, W.L.: Cytogenetic characterization of the 4BC region on the X chromosome of *Drosophila melanogaster:* Localization of the *mei-9, norpA* and *omb* genes 341–346
Barsacchi-Pilone, G., Batistoni, R., Andronico, F., Vitelli, L., Nardi, I.: Heterochromatic DNA in *Triturus* (Amphibia, Urodela). I. A satellite DRA component of the pericentric C-bands 435–446
Barsky, V.E., s. Ananiev 104–112
Bartels, F., s. Schäfer et al. 496–501
Batistoni, R., s. Barsacchi-Pilone et al. 435–446
Becker, A., s. Schäfer et al. 496–501
Beechey, C.V., s. Boer et al. 326–336
Behnke, E., s. Staiber 1–16
Belyaeva, E.S., s. Semeshin et al. 461–468
Beneš, H., Cave, M.D.: Distribution of 5S ribosomal RNA genes in somatic and germ cells of the house cricket, *Acheta domesticus* 31–37
Bernelot-Moens, C., Moens, P.B.: Recombination nodules and chiasma localization in two Orthoptera 220–226
Biémont, C.: Polymorphism of the Mdg-1 and I mobile elements in *Drosophila melanogaster* 393–397
Black, D.A., s. Welter et al. 57–68
Bloomquist, B.T., s. Banga et al. 341–346
Bodycote, J., s. Morgan et al. 191–196
Böltz, E., s. Schäfer et al. 496–501
Boer, P. de, Searle, A.G., Hoeven, F.A. von der, Rooij, D.G. de, Beechey, C.V.: Male pachytene pairing in single and double translocation heterozygotes and spermatogenic impairment in the mouse 326–336
Bouchard, R.A., s. Hotta et al. 140–151
Bourouis, M., s. Semeshin et al. 461–468
Boyd, J.B., s. Banga et al. 341–346
Braithwaite, A.W., Diver, W.P., Le Jeune, S., Driver, F., Naora, H.: Human cellular sequences detectable with adenovirus probes. I. Evidence for novel repeat sequences and a possible *E1a*-like cellular gene . . 537–544
Brodberg, R.K., s. Banga et al. 341–346
Bultmann, H.: Heat shock responses in polytene foot pad cells of *Sarcophage bullata* 347–357
Bultmann, H.: Induction of a heat shock puff by hypoxia in polytene foot pad chromosomes of *Sarcophaga bullata* 358–366
Cabrero, J., Navas-Castillo, J., Camacho, J.P.M.: Effects of supernumerary chromosome segments on the activity of nucleolar organiser regions in the grasshopper *Chorthippus binotatus* 375–380
Camacho, J.P.M., s. Cabrero et al. 375–380
Cassiman, J.-J., s. Vercauteren et al. 197–202
Cave, M.D., s. Beneš 31–37
Cedar, H., s. Jablonka et al. 152–156
Cedar, H., s. Sperling et al. 38–42
Chai, L., s. Matsui et al. 231–242
Croft, J.A., Jones, G.H.: Surface spreading of synaptonemal complexes in locusts. I. Pachytene observations 483–488
Croft, J.A., s. Jones 489–495
Daub, A.-M., Hauser, M.: In vivo effects of ortho-vanadate on spindle structure and dynamics of locust spermatocytes I 271–280
Davidson, N., s. Kress et al. 113–122
Davidson, N., s. Li et al. 305–312
Delafontaine, D., s. Guichaoua et al. 313–320
Dey, R., s. Ghosh 429–434
DiPaolo, J.A., s. Kuff et al. 213–219
Diver, W.P., s. Braithwaite et al. 537–544
Dorn, R., Heymann, S., Lindigkeit, R., Reuter, G.: Suppressor mutation of position-effect variegation in *Drosophila melanogaster* affecting chromatin properties 398–403
Driver, F., s. Braithwaite et al. 537–544
Eichenlaub-Ritter, U., s. Hamelmann et al. 453–459
Elassouli, S., s. Matsui et al. 231–242
Epplen, J.T., s. Schäfer et al. 496–501
Epplen, J.T., s. Schäfer et al. 502–510
Evgen'ev, M.B., s. Zelentsova et al. 469–476
Fero, M.L., s. Morgan et al. 191–196
Ferwerda, M.A., s. Pijnacker 281–290
Fewell, J.E., s. Kuff et al. 213–219
Fisher, G., s. Tease 447–452
Friede, B., s. Reuter et al. 132–139
Friedländer, M., Hauschteck-Jungen, E.: Regular and irregular divisions of Lepidoptera spermatocytes as related to the speed of meiotic prophase 227–230
Fuke, M., s. Matsui et al. 231–242
Fuxa, K.P., s. Greenbaum et al. 203–212
Gall, J.G., s. Wu et al. 291–297
Ghosh, S., Dey, R.: Nuclear matrix network in *Allium cepa* 429–434
Goitein, R., s. Jablonka et al. 152–156
Goitein, R., s. Sperling et al. 38–42
Goldstein, P.: The synaptonemal complexes of *Caenorhabditis elegans:* Pachytene karyotype analysis of the Dp 1 mutant and Disjunction Regulator Regions 177–182
Goldstein, P.: The synaptonemal complexes of *Caenorhabditis elegans:* The dominant *him* mutant mn T6 and pachytene karyotype analysis of the X-autosome translocation 256–260
Goldstein, P., Triantaphyllou, A.C.: The synaptonemal complex of *Meloidogyne nataliei* and its relationship to that of other *Meloidogyne* species 261–266
Greenbaum, I.F., Hale, D.W., Fuxa, K.P.: The mechanism of autosomal synapsis and the substaging of zygonema and pachynema from deer mouse spermatocytes 203–212
Guichaoua, M.R., Delafontaine, D., Taurelle, R., Taillemite, J.L., Morazzani, M.R., Luciani, J.M.: Loop formation and synaptic adjustment in a human male heterozygous for two pericentric inversions 313–320
Hahn, P.J., s. Morgan et al. 191–196
Hale, D.W., s. Greenbaum et al. 203–212
Haliotis, T., s. Higgins et al. 77–86

Hameister, H., s. Kiel et al. 69–76

Hamelmann, U., Eichenlaub-Ritter, U., Ruthmann, A.: The effect of trifluoroperazine on microtubules, nuclear division and the nuclear membranes of the ciliate *Nyctotherus ovalis* 453–459

Hauschteck-Jungen, E., s. Friedländer 227–230

Hauser, M., s. Daub 271–280

Heymann, S., s. Dorn et al. 398–403

Higgins, M.J., Wang, H., Shtromas, I., Haliotis, T., Roder, J.C., Holden, J.J.A., White, B.N.: Organization of a repetitive human 1.8 kb Kpn I sequence localized in the heterochromatin of chromosome 15 . . 77–86

Hirai, K., s. Shiraishi et al. 157–164

Hodge, L.D., s. Welter et al. 57–68

Hoeven, F.A. von der, s. Boer et al. 326–336

Holden, J.J.A., s. Higgins et al. 77–86

Holmgren, P., Johansson, T., Lambertsson, A., Rasmuson, B.: Content of histone H1 and histone phosphorylation in relation to the higher order structures of chromatin in *Drosophila* 123–131

Hotta, Y., Tabata, S., Bouchard, R.A., Piñon, R., Stern, H.: General recombination mechanisms in extracts of meiotic cells 140–151

Hovemann, B., s. Ryseck et al. 17–20

Jablonka, E., Goitein, R., Marcus, M., Cedar, H.: DNA hypomethylation causes an increase in DNase-I sensitivity and an advance in the time of replication of the entire inactive X chromosome 152–156

Jenkins, G.: Synaptonemal complex formation in hybrids of *Lolium temulentum* × *Lolium perenne* (L.). III. Tetraploid 413–419

Johansson, T., s. Holmgren et al. 123–131

Jones, G.H., Croft, J.A.: Surface spreading of synaptonemal complexes in locusts. II. Zygotene pairing behaviour 489–495

Jones, G.H., s. Croft 483–488

Jones, G.H., s. Loidl 420–428

Kalisch, W.-E., Schwitalla, G., Whitmore, T.: Electron microscopic band-interband pattern of the *X* chromosome in *Drosophila hydei* 387–392

Kapp, L.N., s. Morgan et al. 191–196

Kastritsis, C.D., Scouras, Z.G., Ashburner, M.: Duplications in the polytene chromosomes of *Drosophila auraria* 381–385

Kerem, B.-S., s. Sperling et al. 38–42

Kiel, K. von, Hameister, H., Somssich, I.E., Adolph, S.: Early replication banding reveals a strongly conserved functional pattern in mammalian chromosomes 69–76
